

1st BLACK SEA GAMES
TRABZON 2007

MEDIA BULLETIN

PREFACE.....

The Black Sea.....

A Great River Basin in a geography that water, the source of life, leads the creation of civilizations

A world sea that extends to Marmara then to Çanakkale and Aegean Sea and Mediterranean and to the oceans by Gibraltar because it thinks it is foolish to be introverted..

The Black Sea

The most productive sea of the world that joins the people of different religions, languages, colours and races and its coasts always make the green and blue meet

No warships are allowed on it. “ I am the sea of friendship, peace and happiness” says The Black Sea “Only The Fishing, Race and sailing Boats are allowed to sail on me”. Now, the countries around and near The Black Sea are coming together on the occasion of sports that is the source of friendship and peace.

Although the reference is The Black Sea Economic Cooperation, but to raise different flags in the universality of sports , to decorate the different sports suits with different flags, to smile to your competitor with the feeling of friendship and peace while running, jumping and swimming, to make a ring with people extending to shores holding hands singing sports marches The Black Sea Games is being organized.

The Games mean very much for The Black Sea that is trying to widen the ring by embracing not only the countries having coasts but also the neighboring ones.

First, Turkey is hosting the Games,

For now it is being organized in ten disciplines

It is a great experience , for the ones leaving childhood and stepping in being “juvenile” and shall realize that “one second” is a record in Olympic Games.

And the media that shall join all people even far away and shall transmit this feeling of friendship and peace to all over the world.

The media shall compete too.

Our colleagues shall compete too.

But they shall not run

They shall chase the news, decorate them with their pictures and transmit them to all others by removing the borders.

They shall do the best that needs more responsibility.

By their media ID Cards they shall realize that they are the biggest partners and shall help and contribute each other.

But each of them shall try to do the best

They shall present their best professional talents.

The athletes shall compete and we shall make everyone all around the world see this beauty .

Then it means we together shall handle this great work...

Murat TAŞKIN

Black Sea Games

Head of The Media Committee

The Black Sea Games

The first edition of The Black Sea Games shall be organized on 02-08 July 2008 in Trabzon, Rize and Giresun with the participation of 11 member countries of The Black Sea Economic Cooperation. "The Black Sea Games is very important because of being the first in its history and being hosted by Turkey. This great organization shall bring the successful athletes of 18 years and under 18 years of age together and it shall strengthen the ties of friendship and brotherhood and develop the current social and cultural relationships among the member countries of The Black Sea Economic Cooperation. The Games shall be broadcasted by national and regional TV companies.

To make the Games more popular and to enable more athletes to participate all the member countries of The Black Sea Economic Cooperation are allowed to participate in the Games and their support was received in this matter. On 08-10 June 2006 in İstanbul, in the meeting, with the participation of The Ministers responsible of Sports The Statue of The Games was signed and approved as an official instrument.

The Aim of The Games

To strengthen the ties of friendship and brotherhood and develop the current social and cultural relationships in the view of olympic philosophy among the member countries of The Black Sea Economic Cooperation and to strengthen the cooperation among the national federations and to enable international sports cooperation.

The Place of The Games

Trabzon, Giresun and Rize cities that are in the Eastern Black Sea Region and the colours of blue and green has a unity with the nature and history.
